ESGO 2014: FOLLOW UP IN GYNAECOLOGICAL MALIGNANCIES

Starting in Torino 2014, the **European Society of Gynaecological Oncology (ESGO)** launches the State of the Art Conference series, a single topic gathering taking place in between the years of ESGO's traditional biennial International meeting.

Torino 2014 State of the Art Conference program focuses on the **follow up in gynaecological malignancies**, presenting expert recommendations for the most cost-effective clinical surveillance strategies.

Torino 2014 conference challenges the current minimalistic follow up protocol for patients who completed treatments for a solid gynaecological tumor, which is mostly limited to clinical control and imaging when signs and symptoms of recurrences appear.
